

## Laser Spirit Levels and HandyLaser

**HandyLaser Compact**  
The housing of the HandyLaser Compact includes two spring clips for securing the HandyLaser Compact to the reference tile.

**Innovative Design**  
The compact design is a major advantage when working in confined spaces.

**HandyLaser Compact**  
Combines the advantages of a universal 650 nm laser spirit level with outstanding compact dimensions. Vial precision 0,5 mm / 1 m.

8 025.03.00A

4 021563 657841

**Includes:** Adjustable feet and batteries.

**Compact Base**  
For tripod applications with HandyLaser Compact. 5/8" thread, 360° rotation with adjustable angle scale. Fast alignment to the millimetre thanks to adjusting screw.
