

Video inspection

Frequently the source of problems are located in difficult to access, obscure locations that require a lot of effort to find. With this compact, flexible camera even the smallest corners, angles and hollow spaces can be inspected quickly and efficiently.

1280 x 960 pixel

The digital camera head has a high resolution for large, detail-rich recording.

REC 1 GB

The images can be recorded on the included 1 GB SD memory card for subsequent analysis and evaluation. Playback can be done on the VideoFlex display or a PC.

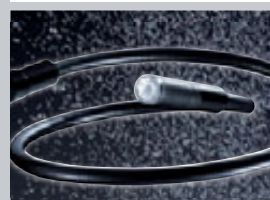

USB

Direct transfer of the data to a PC is made possible by the USB 2.0 interface and USB cable.

ZOOM 3x

Objects beyond the reach of the FlexCamera can be zoomed in with the camera's 3x digital zoom feature.

IP 67

FlexCameras are dustproof and protected against intermittent submersion in water.

VideoFlex

NEW

2 m VERSION
Focus 25 cm

Compact inspection camera for visual inspections of areas which are difficult to access, featuring record function

- The camera head on the flexible cable transmits images directly to the LC monitor.
- Bright LED lighting means that the camera is able to provide clear still images and video recordings even when lighting conditions are at their poorest.
- The compact camera head is small enough to inspect even inaccessible areas.
- The multilingual on-screen display supports intuitive user guidance.
- Camera head: ø 17 mm, Screen size: 3,0"
