

Room design and interior furnishings

SuperLine 2D ⁽¹⁾

Line laser for aligning work on all surfaces

- Precision 1 mm / 1 m
- The rotatable angle scale means that the device and the graduated collar can be set separately to any angle.
- Powerful adhesion magnets facilitate attachment to magnetic surfaces
- Illuminated vial

Optional: Fastening also possible with ConTacts adhesive strips.

Inclusive: SuperLine 2D, batteries

| ORDER NO. | EAN-CODE | PU |

SuperLine 3D

Line laser for aligning work on all surfaces

- Extremely bright laser
- Precision 0.8 mm / 1 m
- Round-the-corner alignment in one work step thanks to 3D fine adjustment
- 3 vials and special line lens
- The line laser can be secured on all surfaces with the enclosed adhesive strips and fixing pins
- The MicroControl button allows rapid and exact fine alignment of the laser.
- The rotatable housing and degree scale enable setting to any angle.

Inclusive: SuperLine 3D, ConTacts, pins, batteries

| ORDER NO. | EAN-CODE | PU |

SuperSquare-Laser

90° laser lines make this the ideal measuring tool for all floor-based alignment work

- Angle precision 0.05°, precision of vertical laser lines 0.5 mm / 1 m
- The wide-range laser beams also project easily visible laser lines onto walls.
- The two vials facilitate vertical levelling on walls.
- The 90° try-square edge makes it easy to align the first floor tile.
- Built-in levelling feet
- Illuminated vial
- 1/4"-tripod connection

Inclusive: SuperSquare-Laser, laser enhancement glasses, carrying case, batteries
