

Interior finishing and building

SuperCross-Green 3

NEW

Green cross-line lasers with plumb laser and additional reference line

- 2.5° self-levelling range, precision 2 mm / 10 m
- The pivoted housing can be turned with a vernier adjustment mechanism to permit exact positioning of laser lines.
- The removable base allows use either with or without a tripod.
- Straightforward plumb function using laser cross at the top and additional plumb laser.
- Green laser technology with 0 °C ... 40 °C temperature range

Inclusive: SuperCross-Green 3, laser enhancement glasses, magnetic target plate, tripod adapter, carrying case, batteries

Greenline-Laser 1 Pro ⁽¹⁾

Green line laser for ground applications as well as for horizontal and vertical levelling directly on the wall

- The laser is fixed to the wall using special pins and precisely aligned through the eccentric adjustment.
- Parallel shifts can be performed through the exact alignment of the laser line to the body edges.
- Precision 3 mm / 10 m
- The length and intensity of the laser line can be adjusted.
- Additional magnets on the underside also allow the 1 Pro to be mounted on steel structures.
- Green laser technology with 0 °C ... 40 °C temperature range

Inclusive: Greenline-Laser 1 Pro, laser enhancement glasses, rechargeable battery, charger, carrying case

Greenline-Laser 2P ⁽¹⁾

Green cross-line laser with plumb laser

- 3° self-levelling range, precision 2 mm / 10 m
- The pivoted housing can be turned with a vernier adjustment mechanism to permit exact positioning of laser lines.
- The removable base allows use either with or without a tripod.
- With additional plumb laser at the top and bottom
- Green laser technology with 0 °C ... 40 °C temperature range

Inclusive: Greenline-Laser 2P, laser enhancement glasses, magnetic target plate, base, rechargeable batteries, charger, carrying case
