AutoPoint-Laser 5

Automatic 5-point laser for levelling and plumbing

Rev. 0211

- **Automatic Level:** automatic alignment by virtue of a magnetic pendulum system.
- The 5-spot laser allows aligning work to be done **in all directions**.
- **Out-Of-Level:** is indicated by optical signals when the unit is outside its self-levelling range.
- **Uncomplicated handling:** Turning the housing enables horizontal levelling, while with the two perpendicular lasers markings can be easily transferred from the floor to the ceiling.
- With the **magnetic base**, the device can be used everywhere - on building and photo tripods, on inside walls, steel structures, etc.
- **Transport lock:** A pendulum lock protects unit during transport.

TECHNICAL DATA

SELF-LEVELLING RANGE ± 3°
ACCURACY ± 2 mm / 10 m
OPERATING RANGE (DEPENDING ON ROOM ILLUMINATION) ca. 50 m
POWER SUPPLY 3 x 1,5V AA / ca. 5 h
LASER WAVELENGTH 635 nm
LASER Class 2 / < 1 mW
WEIGHT 0,8 kg
DIMENSIONS (W x H x D) 65 x 93 x 118 mm

AutoPoint-Laser 5
including carrying case
+ magnetic base
+ laser enhancement glasses
+ batteries

Package size (W x H x D)
240 x 275 x 90 mm

Powerful magnets in the base

360°

50 m

Operating range: 50 m (depending on room illumination)
