

Laserliner®

Greenline-Laser 3P

Cross-line laser with 3 extreme bright green laser lines and plumb function.

Rev.0211

- **Green laser technology:** because of the physiology of the human eye, green lasers are more visible than red lasers by an order of magnitudes. This makes these lasers easily visible over longer distances and in bright ambient light.
- **Automatic Level:** automatic alignment by virtue of a magnetic pendulum system.
- The **2 vertical lines** are aligned at right angles to one another.
- A simple, precise plumb function is afforded by the **additional plumb laser** at the bottom and the laser cross at the top.
- **Individually switchable** laser lines.
- **Out-Of-Level:** is indicated by optical signals when the unit is outside its self-levelling range.
- **RX-Ready:** The integrated hand receiver mode detects the laser lines with an optional laser receiver – for longer distances and work in very bright ambient light.
- Long-lasting, powerful **rechargeable lithium-ion battery**.
- The pivoted housing can be turned with a **vernier adjustment mechanism** to permit exact positioning of laser lines.
- **Vial and height-adjustable feet** for preliminary adjustment of the unit.
- **Transport lock:** A pendulum lock protects unit during transport.
- **Simple, uniform operating techniques.**

TECHNICAL DATA

ACCURACY 2 mm per 10 m
SELF-LEVELLING RANGE ± 2°
LEVELLING automatic
LASER WAVELENGTH line lasers (green) 532 nm plumb laser (red) 650 nm
LASER line lasers, class 2M / < 5 mW plumb laser, class 2 / < 1 mW
POWER SUPPLY rechargeable lithium-ion battery
WEIGHT 1.7 kg
DIMENSIONS (W x H x D) 135 x 215 x 135 mm

1H 2V 1D

Greenline-Laser 3P

- including carrying case
 - + tripod adapter
 - + laser enhancement glasses
 - + rubber caps
 - + rechargeable lithium-ion battery
- Packing dimension (W x H x D)**
325 x 280 x 215 mm

Stable metal base with vernier adjustment

Individually switchable laser lines

Rechargeable lithium-ion battery can be removed
