

HandyLaser Compact

Easy to handle – usable everywhere

New

HandyLaser Compact

The new HandyLaser Compact is an all purpose laser spirit level that combines precision technology with revolutionary compact dimensions.

The HandyLaser Compact is a high quality measuring instrument but it only has a good 17 cm length, so it fits in any toolbox and can be carried anywhere.

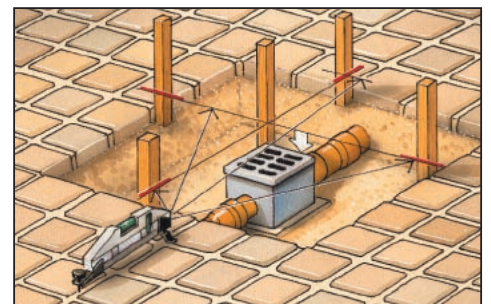

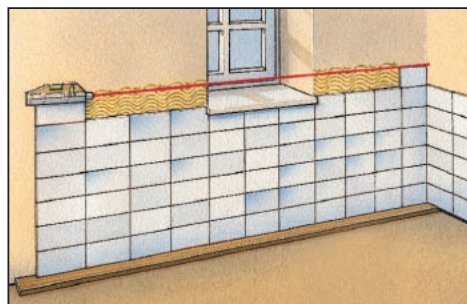

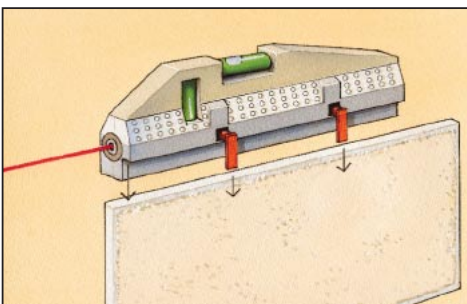

Due to slight weight of the glassfibre-reinforced polyamide and the special spring clips ideal for tiling purposes.

All important details improved.

- Laser wavelength 650 nm, measuring range 50 m.
- Horizontal and vertical vials with 0,5 mm/m accuracy.
- Tiling attachment.
- ON/OFF-Schwitch with LED-Laserindicator.
- Base with 3 permanent magnets.
- Impact resistant, GRP level body.

Incl.: Removable adjustable feet, 2 batteries.
