

## LaserRange-Master 60

Laser distance measurer for determining length, area and volume. With Pythagoras function.

- **Point precise measuring with laser light.** This permits the measurement to be made exactly, even over great distances up to 60 m.
- **Consistent high measuring accuracy** up to 60 m: ± 3 mm
- Simple height measurement for outer walls with the **Pythagoras function:** This value is calculated automatically at the press of a button, see Picture 1.
- Simple assessment of room perimeter with the **Addition and Subtraction functions**, see Picture 2.
- The **Area and Volume** functions permit the acquisition of room sizes. This makes quick work of common calculations, e.g. for material quantities, see Picture 3.
- **Measurement range of 0.2 m to 60 m.** Strong sunlight reduces the measurement range to a maximum of 25 m.
- The integrated spirit-level permits precise alignment of the device. This is especially important when measuring large distances.
- Simplified operation by virtue of **many direct keys** and the LC display's clear layout.
- The last 10 measured values can be called up from the **Recall memory**.
- **Illuminated LC display** with 2 brightness increments.

### TECHNICAL DATA

<b>ACCURACY</b> constant 3 mm
<b>MEASUREMENT RANGE</b> max. 60 m max. 25 m in sunlight
<b>MINIMUM RANGE</b> 0,2 m
<b>LASER WAVELENGTH</b> 635 nm
<b>LASER</b> class 2, < 1 mW
<b>FUNCTIONS</b> Pythagoras, areas, volumes, addition and subtraction of lengths, recall memory
<b>UNITS</b> m / ft (selectable)
<b>REFERENCE</b> to front / rear of housing (selectable)
<b>POWER SUPPLY</b> batteries, 2 x type AA
<b>WATER AND DUST PROTECTION</b> IP 54
<b>WEIGHT</b> 270 g (incl. batteries)
<b>DIMENSIONS</b> 67 x 130 x 40 mm (WxHxD)
 <b>Laser</b> 635 nm

**Article No: 080.940A**  
EAN-Code: 4 021563 663576

**LaserRange-Master 60**  
including soft bag  
+ batteries  
+ operating instructions  
**VE 5**

Spirit-level for device alignment

Sure operation with stable direct keys.

2-increment illumination of the LC display.
