The pocket-size automatic cross-line laser

Rev.0510

Folding supporting feet

Pendulum can be locked for protection during transport

Practical carrying softbag

- **Two very visible laser lines** make it ideal for setting tile or alignment work associated with room design and interior furnishings.
- **Automatic Level:** automatic alignment by virtue of a magnetic pendulum system.
- **Out-Of-Level:** is indicated by acoustic signals when the unit is outside its self-levelling range.
- **Additional slope mode** to align angled surfaces.
- **Transport lock:** A pendulum lock protects unit during transport.
- **Folding supporting feet** ensure a stable position during alignment work but are conveniently tucked away for carrying.
- Always on-hand with the **practical carrying soft-bag.**
- **Simple operation:** the laser cross is switched on and off at the press of a button.
